

## Mapping the future: AI, IP law & other creatures

*Una Europa Seminar*

26–27 September 2022

Jagiellonian University in Kraków

The Future Law Lab of the Jagiellonian University in Kraków is proud to host you at an invitational, in-person seminar titled “**AI, IP law & other creatures**”. The event aims to facilitate dialogue between established scholars and junior researchers from the universities making up the Una Europa Alliance. We would like to create a space of mutual learning, enabling the participants to share their present work, take a glimpse at the frontier of research, and allow new ideas to spark and grow.

The Seminar will be held at the Faculty of Law and Administration, 12 Bracka Street, room 200.

Each session will consist of two talks (up to 25 minutes each) and a moderated Q&A (the remaining time). We suggest that the talks last about 20 minutes.

### AGENDA

#### Day 1 (Monday, 26 September)

10:00 – 10:30	Welcome & introductions
10:30 – 11:30	<b>Juan Pavón Mestras</b> (Complutense University of Madrid) <i>Why AI worries us more than traditional software?</i> <b>Luca Schirru</b> (KU Leuven) <i>Text and Data Mining: should we worry about copyright?</i> Chair: Antonino Rotolo
11:30 – 12:00	Coffee break
12:00 – 13:00	<b>María Jesús González-Espejo</b> (Instituto de Innovación Legal) <i>The role of transparency in Artificial Intelligence applied to the legal sector</i> <b>Zuzanna Zapotoczna</b> (Jagiellonian University) <i>Legal requirements on explainability in AI-based decision making and the standard of informed consent</i> Chair: Béatrice Schütte
13:00 – 14:30	Lunch at Smakołyki, 28 Straszewskiego Street
14:30 – 15:30	<b>Rachele Carli</b> (University of Bologna) <i>Human-robot interaction and users' deception</i>
